

## **CRIME SCENE RECONSTRUCTION – MARKING EVIDENCE**

*Instructor: Charlotte Brazier*

All right. So double check if I miss anything.

OK. Do you want me to do this in mid-range first?

You do one mid-range, and then we'll go in and mark it. And then you could do mid-range while I'm labeling. Don't forget to log it.

Got it.

All right. So I'm seeing two pieces, two shells.

Oh, yeah. It's amazing how much the leaf litter obstructs stuff.

Yeah.

Yeah.

All right, now that's this side of cloth. I'm seeing it here. Here-- what do you call?

The hair tie.

The hair band, yeah, OK. We do have a weapon. We have a weapon.

OK. And you said a hair tie?

Yeah, a hair tie. It's inside the cloth here.

OK. Hey, you know what? I think I see some hair on that shirt.

Oh, OK. Good pickup. When we're done, I'll mark that. Take some pictures. We've got to get the trace evidence picked up first.

OK.

What do you think?

Look. Yeah, that looks like a print.

Yeah.

You got a leaf right in the middle. We'll have to move it, but.

Get a picture first.

Yeah.

Yeah. Good memory there.
